CD889:44. One wonders why this interview (which could have been by phone, it is that inconsequential), just before the WC N.O.hearings. Obviously, it says he knew nothing other than what he said in his original 11/63 interview (this was 4/1/64), which means very little, since he didn't know what the FBI reported of that interview. The sole purpose this report seems able to serve is to play Voebel down to the lawyers doing the questioning. Conspicuously, no ref to Ferrie.
